

ALPINESTARS PRODUCT RELEASE

Product Name - **SUPERTECH SUIT**

Category - **Auto Racing Suit**

Description - **The very latest in auto suit technology. Designed and developed using unique fabrics to reduce weight and improve comfort and safety performance. The construction of this 3-layer suit provides superior breathability and gives the driver unsurpassed levels of flexibility. The design and cut aims to produce a distinctively slender appearance.**

THE SUPERTECH SUIT KEY FEATURES:

- **FIA Homologated 8856-2000**
- **SFI Approved to 3.2A/5**
- **Construction**

The suit comprises of three layers. The outer layer is manufactured using Alpinestars L&G and Ripstop fabrics to provide a tough durable outer shell capable of dealing with the stresses and strains of high level competition. The L&G fabric is made up with a mix of Nomex® and Carbon, which gives superior performance in fire resistance and helps to provide an ultra-lightweight product, whilst the Ripstop material helps provide greater breathability. The mid layer, made from Nomex® felt, helps to provide a highly effective heat transfer protection barrier, while the Internal layer is designed to provide the driver with class leading comfort with a flat seam construction to improve comfort at pressure points and also improving the suits overall strength.
- **Engineered racing design**

The multi-panel construction is specifically designed to give the driver a better fit and feel with pre-curved arms and legs to improve comfort in the driving position. The suit has been ergonomically designed to provide the driver with the best possible feeling in and out of the car.

Simple, clean, design, utilizing different panel base colors gives a distinctive, slim, appearance and allows for easy sponsorship logo placement and presentation. The unique shoulder construction features Alpinestars innovative extraction panels specifically designed to work in harmony with the industry standard HANS device providing the driver with superior comfort when in the car.
- **Ergonomic flex zones**

Anatomical lumbar, Ripstop fabric, expansion panel provides superior flexibility both in and out of the car giving the driver the best possible movement whilst improving comfort.
- **Comfort and convenience**

Alpinestars exclusive fully-floating shoulder gives easy, unrestricted movement. The arm fabric is suspending from the suit via a layer of knit fabric which allows extension for additional movement when the driver needs it the most.
